Contact: the contact address on the product website you use, or the registered office.

WebAPI Group is a service of WEBAPI GROUP SAS. WEBAPI GROUP SAS operates Autom, BrowserSolver, CaptureKit, ChartQuery, Flystack, HuntAPI, Piloterr, and Veille. Each product is an API or software service described on its own website. These documents are the company-level set. A product website's terms describe that product.

Hosting

The service that handles customer API content runs on Hetzner Online GmbH infrastructure in Falkenstein and Nuremberg (Germany) and Helsinki (Finland), and in datacenters in Toulouse operated by WEBAPI GROUP SAS. Customer API content is processed only in the EU/EEA, on Hetzner infrastructure in Germany (Falkenstein and Nuremberg) and Finland (Helsinki), and in our own datacenters in Toulouse. This applies to every customer and every plan.

Cloudflare, Inc. provides DNS for the public websites. The proxy is enabled on those sites, and Orange-to-Orange is enabled. Cloudflare does not host customer API content. That content stays on Hetzner and in the Toulouse datacenters.
